Ready with solutions that make your line more

Cleco offers fit-for-purpose, integrated tool solutions to keep your assembly line running smoothly. Our production tool solutions help improve productivity, control quality and maintain safety. Since 1894, Cleco has delivered value to many of the world's leading manufacturers in a variety of industries, including Automotive/Motor Vehicle Industry, Agriculture & Lawn Equipment, Heavy Truck & Trailer, Large Appliance, Aerospace and more.

ASSEMBLY TOOLS

COUNT ON CLECO CORDLESS ASSEMBLY TOOLS WHEN MOBILITY IS ESSENTIAL.

Cleco cordless assembly tools are designed for maximum mobility. Cleco offers the ability to run up to 16 cordless assembly tools from one global controller, a savings of up to 50% over traditional systems. Cleco Cordless nutrunners have been designed to provide wireless connectivity in manufacturing environments. The flexibility of a wireless tool in safety critical applications can greatly improve operator productivity.

THE SMARTEST TOOL FOR THE TOUGHEST ENVIRONMENT.

The new CellCore™ cordless assembly tools are smart, durable and designed to withstand the toughest environments. The lightweight ergonomic design reduces operator fatigue while delivering state-of-the-art power, weight and balance. A large user interface makes it quick and easy to program rundowns on the tool without a controller. CellCore puts you in control with cordless assembly tools that are easy to handle, and hard to break.

CLECO'S LIVEWIRE™ 2 TOOLS ARE STRONGER, LIGHTER, AND LONG LASTING.

LiveWire™ 2 tools perform up to 1700 rundowns on a single battery charge and can run up to 500,000 cycles between maintenance. The second generation of LiveWire 2 tools is lighter than the original, has a compact design, and still maintains the same operator-friendly interface and precision performance you've come to know from Cleco.

CellClutch®

Simplicity and intelligence merge with our newest innovation in cordless tools. CellClutch delivers torque control for functional joints, programmable with up to seven stages to prevent cross thread errors, has RPM speed control and provides repeatability and fastening accuracy during the assembly tightening process.

Quick Tool Installation

Setting the preferred torque is a quick and easy 3-step process: Complete a rundown, read the torque and make adjustments, complete another rundown to verify required torque is met.

Software Included at No Extra Charge

Reduce total cost of ownership with CellClutch software included with tool purchase.

Improved Visibility

Built-in LED worklight illuminates the work surface to reduce strain.

Powered by the Milwaukee® M18 Red Lithium battery platform and available in WiFi/Bluetooth connected versions, CellClutch tools can seamlessly communicate with the Cleco mPro™ line of controllers using both WiFi (2.4 & 5 GHz) and Bluetooth v4.2 (Low Energy and BR/EDR wireless communication) in a single convenient tool. With CellClutch, tool intelligence has never been so simple.

Accuracy

CM > 1.67 within a +/- 10% tolerance range

Speed Control

Easily change the tool's RPM settings to meet the required application requirements.

Ergonomic

Lightweight, cordless design eliminates the need for bulky cords and hoses.

Connected Advantage*

WiFi (2.4 & 5 GHz) and Bluetooth v4.2 (Low Energy and BR/EDR wireless communication) connected for easy-to-program setting adjustments, live reporting, traceability, and batch counting through the mPro controller platform.

* Available in Connected version only, mPro controller sold separately.

*Bluetooth is a registered trademark owned by Bluetooth SIG, Inc.

Cordless Electric Nutrunners

CellClutch® Cordless Assembly Tools deliver simple, programmable torque control to your line.

- Reduced Operator Error - Pre-set torque, “ok” “not ok” green and red lights make tool operation simple.
- Eliminate cross threads and errors during rundowns with programmable speeds and strategies.
- Eliminate Over Torque Damage - Contactless electronic switch shuts off tightening rotation when set torque is reached.
- Reliable Single Battery Platform - Milwaukee® M18 Red Lithium battery can be used across the entire Cleco cordless range to reduce complexity and costs in your plant.
- WiFi (2.4 & 5 GHz) and Bluetooth v4.2 (Low Energy and BR/EDR) wireless communication for easy-to-program setting adjustments, live reporting, traceability, and batch counting through the mPro controller platform.
- *Available in Connected version only, mPro Controller sold separately

Introducing:

CellTek™

Cordless Assembly Tools

Safety/Accuracy
Repeatability of 2.0 cm/cmK @ +/- 7% accuracy
for safety critical joints

Cleco's new CellTek™ Cordless Assembly Tools bring superior connectivity, with the most reliable real-time synchronization with manufacturing and engineering systems. Designed to ensure safety-critical assembly with best-in-class accuracy, they are also the fastest cordless assembly tools in its class.

Multi-Color LED
Work light for secondary "ok/not ok" operator feedback while also illuminating your workpiece

Designed to enable the Smart Factory of Tomorrow, Cleco introduces the most advanced cordless nutrunner, CellTek.

Connectivity - The most reliable real-time synchronization with manufacturing and engineering systems

Speed - Improve your production time with the fastest cordless assembly tools in its class

Ergonomic - Sleek and lightweight for the ultimate in comfort and balance

Accuracy - Ensures safety-critical assembly with best-in-class accuracy and repeatability

Decreased Takt Times
Patented motor technology allows increased speeds over other battery platforms

Stay Alive Function
Prevents reboot during battery change, gaining time and efficiency

Flexible
Easily connects over Wifi (2.4 & 5.0 GHz) or Bluetooth 4.0

Cordless Electric Nutrunners

Cordless Electric Nutrunners

Cleco's new CellCore™ Cordless Assembly Tools are smart, durable and designed to withstand the toughest environments. The lightweight ergonomic design reduces operator fatigue while delivering state-of-the-art power, weight and balance. A large user interface makes it quick and easy to program rundowns on the tool without a controller.

Assembly line tough
(Drop tested up to 5 feet)

Reduces operator fatigue while
delivering state-of-the-art power and intelligence

Increases uptime with 500k cycles
between maintenance

Large user interface allows easy
on-the-tool programming without a controller

CellCore is the most versatile, easy-to-use cordless tool in the industry.

Users can program up to 10 rundown strategies, called “FastApps”, directly on the tool in standalone mode. Users can also pair CellCore tools with Cleco’s new mPro200 controller. By pairing the devices, users can easily capture data in real time and program advanced rundowns within a much more compact footprint.

Multi-Color LED - Color worklight on the tool for secondary okay/not okay visual feedback

Large User Interface - Allows easy on-the-tool programming without a controller

10 "Fast Apps" Programmable Rundown Strategies

Versatile - Forward and backward compatibility with Cleco's entire Global Controller platform

Exceptional Low Weight, Balance and Grip - For superior ergonomics that increase productivity

Increased Storage - No uploading rundowns for up to one week (storage for 15,000 rundowns, 500 traces)

"Stay Alive" Function - Prevents reboot during battery change, gaining time and efficiency

FastApps - Program up to 10 applications directly on the tool or connect to a controller for maximum functionality

Versatile - 40-2000Nm range allowing more flexibility in your tool

Reliable - Norbar® torque multiplier provides proven accuracy and quality

Access - 360° rotating head and handle for maximum accessibility

Cordless Electric Nutrunners

Assembly line tough, designed for Quality Critical Applications and programming on the tool

CellClutch Pistol ID Ring 5 Pack - Blue
CellClutch Pistol ID Ring 5 Pack - Green
CellClutch Pistol ID Ring 5 Pack - Grey
CellClutch Pistol ID Ring 5 Pack - Red
CellClutch Pistol ID Ring 5 Pack - Yellow

- Color identification ring for Cleco CellClutch right angle tool
- Sold in pack of five (5)

Model
CellClutch RA ID Ring 5 Pack - Black
CellClutch RA ID Ring 5 Pack - Blue
CellClutch RA ID Ring 5 Pack - Green
CellClutch RA ID Ring 5 Pack - Grey
CellClutch RA ID Ring 5 Pack - Red
CellClutch RA ID Ring 5 Pack - Yellow

Up to 68Nm/50 ftlbs use with Electric, Pneumatic Clutch Stall and Pulse and Manual Electronic and Click Torque Wrenches

- Choice of measurement modes including track, peak, pulse, and click
- Memory for 999 date- and time-stamped readings for complete traceability
- 3-color LED indication of torque measurement status
- Easy-to-operate for fast and accurate torque readings and assembly tool auditing
- Automatically switches to highest voltage power source (main/USB/battery)
- Clear, easy-to-read white OLED screen for basic torque data readings and alerts

Model	Description	Torque Range Max	
		Ft Lb	Nm
CJK38	Dynamic Joint Kit for use with 68Nm Stationary Transducer	50	68
CST6838	68 Nm Stationary Transducer	50	68
CTA0414	0.4-4 Nm Torque Analyzer	3	4
CTA3038	3.0-30Nm Torque Analyzer	22	30

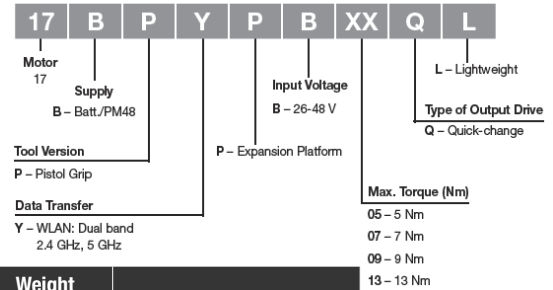

Cordless Electric Nutrunners

Lightweight pistol tool designed for safety critical applications

- Accurate - Designed for safety critical applications with a CM/CMK of 2.0 at +/- 7% accuracy
- Economical - Save money, time and space by pairing up to 16 tools to just one Mpro Controller
- Ergonomic - Reduce operator fatigue with lighter, ergonomic tools
- Reliable - Increase uptime with 500k cycles between maintenance periods
- Interchangeable - Decrease downtime by swapping tools quickly on the assembly line with the LiveWire memory chip

Pistol grip nutrunner nomen

Model	Torque Range				Free Speed		Length In (26V)	Weight		Output Drive

General:

All tools must be used with an approved Cleco tightening controller or suitable PC software.
Battery weights: 26 V Li-Ion 1.1lbs. (0.50kg), 44 V Li-Ion 1.9 lbs. (0.85kg).
The 44 V battery is 19mm/.705" shorter than the 26V battery.

Extra Equipment:

Scanner, sockets, batteries, and chargers must be ordered separately.

Lightweight Right angle tool designed for safety critical applications

- Accurate - Designed for safety critical applications with a CM/CMK of 2.0 at +/- 7% accuracy
- Economical - Save money, time and space by pairing up to 16 tools to just one Mpro Controller
- Ergonomic - Reduce operator fatigue with lighter, ergonomic tools
- Reliable - Increase uptime with 500k cycles between maintenance periods
- Interchangeable - Decrease downtime by swapping tools quickly on the assembly line with the LiveWire memory chip

General:
 All tools must be used with an approved Cleco tightening controller or suitable PC software.
 Battery weights: 26 V Li-Ion 1.1lbs. (0.50kg), 44 V Li-Ion 1.9 lbs. (0.85kg).
 The 44 V battery is 19mm/.705" shorter than the 26V battery.
 Extra Equipment: Scanner, sockets, batteries, and chargers must be ordered separately.

- Traceability - Link your rundown results to a serial number or VIN directly from the tool
- Compact - Eliminate external barcode scanners on the line

Model	Description
937240PT	Barcode Scanner Class 2 for LiveWire 2 and Platform tools
943045PT	2-D LED lightbar, green, IEC 60825: Class 2
962034PT	2-D Laser crosshair, IEC 60825: Class 2

- Accurate - Eliminate operator influence and improve your CP/CPK by using an added gyroscope on the tool
- Compact - Gyroscope module is added directly to the top of the tool in a small package

Model
942039PT

- 2.0 Ah High capacity battery
- Up to 83% faster vs. 26 V battery
- Charge level indicator on battery
- Automatic and manual deep sleep mode
- LCD Display indicating battery charge level and total charge cycles
- Single tab, one-hand removal

Model	Weight		Width	Depth
	Lb	kg	mm	mm
961102PT	2.2	1.01	81	153

Model	Weight (kg)	Width	Depth
	kg	mm	mm
961101PT	0.69	81	122

Cordless Electric Nutrunners

- Battery charger for 26V, 44V and dual charger
- Dual charger auto sensing 26V/44V technology
- 1 hour charge time
- Power and status LEDs

Model	Weight (kg)		Width		Depth	
	Lb	kg	in	mm	in	mm
935391				130		210
962085PT		0.82		130		210

- Provides a constant power source with speeds matching that of the 44 V battery
- Auto sensing input - (85 - 275 VAC)
- Power and status LEDs
- Electronic circuit protection

Model	Weight		Width		Depth		Length	
	Lb	kg	in	mm	in	mm	in	mm
961350PT	6.8	3.10	9.4	240	5.9	150	4.7	120

LiveWire Dual Band Access Points

- Industrial access point with up to 300 mbps speed on both 2.4 and 5.0 GHz
- Dual band allows great flexibility in a plant

Model
544249PT
961390
961453PT

Radio Range: 30-50 meters (XBEE 30 meters max.) IEEE 802.11 a/b/g (depending on tool)
 Max Tools: 16 (Contact Regional Support Center for requirements greater than 10)

- Scratch and impact covers protect your tool and your workpiece

Model
936424PT
936489PT
937210PT
937704PT
937706PT
937708PT
937711PT

- Scratch and impact covers protect your tool and your workpiece

Model
936382
936383
936384
936385PT
936386PT
936387

- Tool holders with and without IRDA controller pairing devices built in

Model	Description	Length	Length
		ft	m
935144	Tool holder for pistol grip tools incl. IrDA		
935170	Infrared interface with cable	3.3	1
935290	Tool holder for right angle tools up to 50 Nm incl. IrDA		
935395	Tool holder for right angle tools up to 50 Nm		
935396	Tool holder for pistol grip tools		
935998	Tool holder for right angle tools from 70 Nm		
935999	Tool holder for right angle tools from 70 Nm incl. IrDA		

Tightening solutions for every application

CLECO NEOTEK - 1 MILLION ACCURATE REPEATABLE, MAINTENANCE-FREE CYCLES.

Engineered to last also means engineered to perform. Precision-hardened and ground spiral cut bevel and pinion gears equals zero preventative maintenance for 1 million cycles.

By providing class-leading repeatability of 2.0 Cm/Cmk @ $\pm 7\%$, NeoTek™ is not only maintenance free, but worry free. The 1,000,000th rundown will be as secure as the first.

Cleco Corded Electric Nutrunners - the next generation of

Our corded electric assembly tools offer increased productivity, improved quality, and reduced downtime with real-time, data driven results for those assembly applications in which safety is critical.

for safety-critical applications.

Cleco 30-70 series corded assembly tools are driven by a maintenance-free brushless motor. This motor technology coupled with our high-resolution resolved offers full range control for safety critical joints. The 30-70 series tools offer industry-proven gear trains for outstanding, durable performance.

Cleco 30-70 series nutrunners provide a unique modular assembly design for ease of repair. The on-board intelligent memory chip records tool set-up values and counts cycles for maintenance scheduling to prevent costly production downtime.

Workstation control with

The Cleco Hybrid Controller features a large touchscreen with an intuitive software interface that supports industry standard protocols, fieldbus communication, and the ability to manage up to 16 tools, cordless and corded.

Programming can be done directly from the controller or via a remote network connection, and the configurable architecture allows easy integration with your MES system.

Cost effectiveness is increased by simplifying system installation and decreasing complex process modifications.

Corded Electric Nutrunners

Ergonomic grip and light weight reduces operator fatigue to increase productivity.

- 1 Million Cycles Maintenance Free
- Repeatability & Accuracy with 2.0 Cm/Cmk at +/- 7%
- Configurable LED light rings
- Tactile & Audible Operator Feedback
- Programmable Multi-function Buttons

Corded Electric Nutrunners

- Use to connect a 30/50/70 Series tool to an mPro400GCD-P controller.
- Designed for maximum life.
- Quarter-Turn connection.
- Ultra-tight 30mm bend radius.
- Cycle counter memory.

Model	Description	Weight		Length	
		Lb	kg	ft	m
961560-030	3 Meter NeoTek Tool Cable	1.7	0.79	9.8	3
961560-060	6 Meter NeoTek Tool Cable	2.7	1.23	19.7	6

961923-250	25 Meter NeoTek Extension Cable	17.6	7.99	82	25

- Used to connect 67 series tools as well as older 17/47 Series corded tools to an mPro400GCD controller
- Allows easy upgrade to newest controller technology

Model	Description
961789PT	Y-Cable Adapter for 17/47/67 Series tools

Model

943527PT

- Scans 1D and 2D barcodes
- Scan images from paper documents as well as screens and monitors
- Camera technology eliminates traditional laser barcode scanners

Model	Description
937731PT	For 30/50 Series Right Angle and Inline Tools
942391PT	For 70 Series Right Angle and Inline Tools
T55-3000018	For 30 Series Pistol Tools
T55-3000019	For 50 Series Pistol Tools

- Ultra-bright LEDs
- Fully programmable
- High, medium, and low intensity light beam

Model	Description
943455PT	For 30/50 Series Right Angle and Inline Tools
943462PT	For 30/50 Series Right Angle and Inline Tools
943464PT	For 70 Series Right Angle and Inline Tools

The Gyroscope module allows angle correction for hand-held tightening equipment without support.

- Up to now, angle controlled tightening strategies have required a reaction arm to avoid a change of the reference angle during a rundown.
- This support is no longer required due to the corrective function of the gyroscope module. the potential influence of an operator to the absolute angle is compensated by the module.

Model	Description
942396PT	For 30/50 Series Right Angle and Inline Tools 30Nm
943684PT	For 50 Series Right Angle and Inline Tools
943685PT	For 70 Series Right Angle and Inline Tools
T55-3000020	For 30 Series Pistol
T55-3000021	For 50 Series Pistol

Corded Electric Nutrunners

- Improved operator safety
- Keeps hands away from assembly
- One hand operation

Model	Description
201034	For 70ESN95ND6/70ESN130ND6/70ESN185ND6/70ESN245ND6
301934PT	For 30ESN12EAQ/30ESN12FA3/30EPN12EAQ/30EPN12FA3
46036202	For 70ESN355SD8/70ESN475SD8/70ESN700SD8/700ESN850SD8
48047128	For 50ESN65HD4/50ESN85JD4/50ESN125KD4/50EPN65HD4/50EPN85JD4/50EPN125KD4
542127	For 30ESN19FB3/30ESN26FC3/50ESN28FD3/50ESN43GD3/30EPN19FB3/30EPN26FC3/50EPN28FD3/50EPN43GD3
T50-3000064	For 50EAN59HA3
T50-3000065	For 50EAN80JA4
T50-3000066	For 50EAN110KA4
T50-3000067	For 50EAN150KB4
T50-3000068	For 50EAN205NA6

- For use with spring balancer
- Improved operator ergonomics

Model	Description
T50-3000048	30/50 Series Fixed Suspension Bail (excl. pistols)
T50-3000060	30/50 Series Fixed Offset Suspension Bail (excl. pistols)
T50-3000061	30/50 Series Swivel Offset Suspension Bail (excl. pistols)
T50-3000063	30/50 Series Swivel Suspension Bail (excl. pistols)

- For hard to reach applications.
- Reduces reaction force to the operator.

Model	Description
T50-3000069	For 50EAN110KA4
T50-3000070	For 50EAN150KB4/50EAN205NA6
T50-3000071	For 50EAN80JA4
T50-3000072	For 50EAN59HA3

- For use with spring balancer
- Improved operator ergonomics

Model	Description
1110909	18/48 Series suspension bail (excl. pistols)
942045PT	Standard tool suspension bail for LiveWire 2 L Series
942185PT	Rotating suspension bail for LiveWire 2 L Series
S387983	Rotating suspension bail for right angle nutrunner (not for LiveWire 2 L Series)

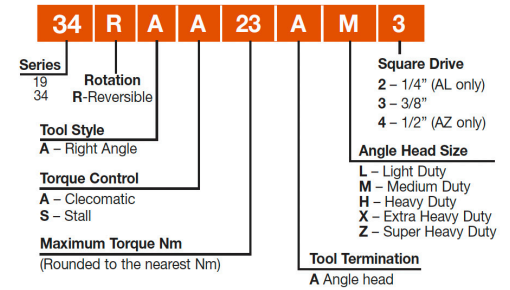

Pneumatic Nutrunner/Screwdriver

0.3 - 8.3 ftlbs / 0.5 - 11.3Nm

- Durable Clecomatic Clutch delivers best-in-class torque repeatability and long calibration cycle
- Lightweight, ergonomic and durable handle designed with operator in mind
- Engineered to suit a wide range of applications, from high volume assembly to aerospace
- Grip material tested to withstand a range of industrial chemicals

Tool performance rated at 90 psi (620kPa) air pressure.

Standard Equipment:

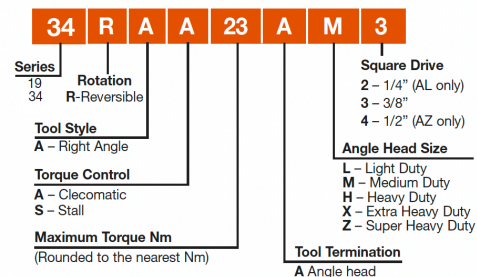

Manual and all torque springs required to meet indicated torque specification

4 - 55 ftlbs / 8 - 75 Nm

- Lightweight, ergonomic, and easy to service
- Indexable angle head for added versatility
- Durable Clecomatic Clutch delivers best-in-class torque repeatability and long calibration cycle
- Heavy-duty Cleco motor is the industry standard for reliability
- Oil-less blades reduce oil mist in work area

General: Tool performance rated at 90 psi (620kPa) air pressure.

Standard Equipment:

Operating instructions & service manual

Suspension bail

Clutch adjustment tool

Optional Equipment:

Service wrench: 201898

Pneumatic Nutrunner/Screwdriver

26 - 305 ftls / 35 - 410 Nm

- Heavy-duty Cleco motor is the industry standard for reliability
- Durable Clecomatic Clutch delivers best-in-class torque repeatability and long calibration cycle
- Planetary gears designed for tool speed changes with minimal parts service and replacement
- Heavy-duty spindle bearings and splined retractable spindles reduces friction, improves torque repeatability, and prolongs life.
- External Torque Adjustment
- Rotating Exhaust Deflector

General:
 Tool performance data measured at 6.2 bar inlet air pressure at the air inlet tube.
 Standard Equipment:
 Operation and maintenance instructions
 Torque reaction mounting plate (75 series)
 All torque springs necessary to achieve the stated torque.

Up to 4.6 ftlbs / 6.2 Nm

- Designed for soft-draw applications
- Torque can be adjusted by adjusting air pressure
- Compact angle head for tight access
- Lightweight, ergonomic, and easy to service

Model Number Example

 Standard Equipment:
 Operating instructions & service manual
 Suspension bail

Pneumatic Nutrunner/Screwdriver

Up to 325 ftlbs / 440 Nm

- Engineered for performance, durability, mounting versatility, and serviceability
- Torque can be adjusted by adjusting air pressure
- Heavy duty motor, gearing and angle head for long life
- Tool can be reversed if required
- Torque reaction plate supplied with 75 series

55 & 75 Model Number Example

Model	Torque Range Max (nm)	Torque Range Max (ft/lb)	Free Speed	Length	Weight		Head Height	Side to Center	Air Consumption	Air Inlet Size
	Max Nm	Max Ft Lb	r/min	in	Lb	kg	in	in	Scfm	in

75RNL-2X-6	440.0	325.0	90	20.1	13.1	5.95	2.75	1.44	70	1/2

GENERAL:
Tool performance data measured at 6.2 bar inlet air pressure at the air inlet tube.
STANDARD EQUIPMENT:
Operation and maintenance instructions
Torque reaction mounting plate (75 series)

Up to 140 ftlbs / 190 Nm

- Engineered for performance, durability, mounting versatility, and serviceability
- Torque can be adjusted by adjusting air pressure
- Heavy duty motor, gearing and angle head for long life
- Non reversible prevents accidental operation of tool in reverse

55 & 75 Model Number Example

Model	Torque Range Max (nm)	Torque Range Max (ft/lb)	Free Speed	Length	Weight		Head Height	Side to Center	Air Consumption	Air Inlet Size
	Max Nm	Max Ft Lb	r/min	in	Lb	kg	in	in	Scfm	in
55NL-3T-4	149.0	110.0	290	16.7	6.4	2.89	1.97	0.88	55	1/2
55NL-2T-4	190.0	140	210	16.7	6.4	2.89	1.97	0.88	55	1/2

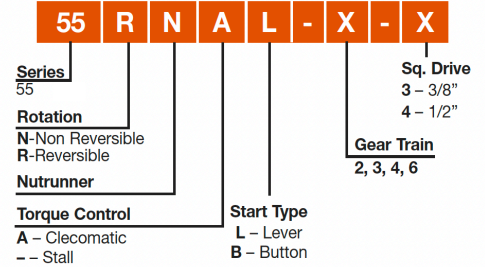

General:
Tool performance data measured at 6.2 bar inlet air pressure at the air inlet tube.
STANDARD EQUIPMENT:
Operation and maintenance instructions

25 - 67 ftls / 34 - 91Nm - Use with Torque Reaction

- Engineered for performance, durability, mounting versatility, and serviceability
- Durable Clecomatic shut off clutch delivers best in class torque repeatability
- Heavy duty motor, gearing and clutch for long life
- Torque reaction bar supplied with tool

55 Model Number Example

Model	Torque Range				Free Speed r/min	Length in	Weight		Air Consumption Scfm	Air Inlet Size in
	Min Nm	Max Nm	Min Ft Lb	Max Ft Lb			Lb	kg		
55RNAL-3-4	34.0	69.0	25.0	51.0	370	16.1	6.5	2.95	55	1/2
55RNAL-2-4	46.0	91.0	30.0	67.0	270	16.1	6.5	2.95	55	1/2

General: Tool performance rated at 90 psi (620kPa) air pressure
 Standard Equipment:
 Operating instructions & service manual
 Aluminum Torque Reaction Bar 869769

0.3 - 3.7ftlbs / 0.6 - 5.1Nm

- Durable Clecomatic Clutch delivers best-in-class torque repeatability and long calibration cycle
- Lightweight, ergonomic and durable handle designed with operator in mind
- Engineered to suit a wide range of applications, from high volume assembly to aerospace
- Grip material tested to withstand a range of industrial chemicals

Cleco 19 Series Inline

Model	Torque Range				Free Speed r/min	Length in	Weight		Air Consumption Scfm	Air Inlet Size in
	Min Nm	Max Nm	Min Ft Lb	Max Ft Lb			Lb	kg		
19BPA02Q	0.6	2.1	0.3	1.6	2300	9.3	1.41	0.64	11	1/8
19BPA03Q	0.6	2.9	0.3	2.2	1600	9.3	1.41	0.64	11	1/8
19BPA04Q	1.1	4.5	0.3	3.3	920	9.1	1.3	0.59	11	1/8

19BPA06Q	1.1	5.1	0.3	3.7	220	9.5	1.5	0.68	11	1/8

General: 90 psi (620kPa) required for maximum rated torque.
 Standard Equipment:
 Operating instructions & service manual
 Suspension bail
 All torque springs required to meet indicated torque.

Pneumatic Nutrunner/Screwdriver

0.3 - 3.7ftlbs / 0.6 - 5.1Nm

- Durable Clecomatic Clutch delivers best-in-class torque repeatability and long calibration cycle
- Lightweight, ergonomic and durable handle designed with operator in mind
- Engineered to suit a wide range of applications, from high volume assembly to aerospace
- Grip material tested to withstand a range of industrial chemicals

Cleco 19 Series Inline

Model	Torque Range				Free Speed r/min	Length in	Weight		Air Consumption Scfm	Air Inlet Size in

19SCA06Q	1.1	5.1	0.3	3.7	260	10.2	1.61	0.73	11	1/8

General: 90 psi (620kPa) required for maximum rated torque.
 Standard Equipment:
 Operating instructions & service manual
 Suspension bail
 All torque springs required to meet indicated torque.
 Lever Push-to-Start models include kit to convert to lever only. (301409)

0.5 - 6.2 ftlbs / 0.8 - 8.5 Nm

- Compact design increases productivity, saves weight, and is easy to integrate into any assembly environment
- Dependable Clecomatic clutch delivers consistent torque accuracy and repeatability
- Cleco motor is the industry standard for durability
- Easy to repair and maintain, with high parts interchangeability to other Cleco products

Model	Torque Range				Free Speed r/min	Length in	Weight		Side to Center in	Air Consumption Scfm	Air Inlet Size in

General: 90 psi (620kPa) required for maximum rated torque.
 Weight does not include side handle.
 Standard Equipment:
 Operating instructions & service manual
 Suspension bail
 Side handle 861006 on models above 8 ft lbs torque cap.
 All torque springs required to meet indicated torque.

Pneumatic Nutrunner/Screwdriver

0.4 - 6.5 ftlbs / 0.6 - 8.9 Nm

- Durable Clecomatic Clutch delivers best-in-class torque repeatability and long calibration cycle
- 2 grip sizes available for added versatility
- Reverse lever can be rotated to accommodate left-or-right-handed operators
- Engineered to suit a wide range of applications, from high volume assembly to aerospace
- T Handle balanced for high volume assembly cell and line production of machine screws

Model	Torque Range				Free Speed r/min	Length in	Weight		Air Consumption Scfm	Air Inlet Size in

Standard Equipment:

Operating instructions & service manual

Suspension bail

All torque springs required to meet indicated torque

Side handle 861006PT on all models above 8 ft lbs torque

Up to 11.6 ftlbs

- Great for soft draw applications such as wood or aluminum
- One-hand forward reverse switch
- Rugged metal housing and components outlasts the competition
- Efficient and balanced design maximizes accessibility while minimizing operator fatigue
- Operator push maintains drive, reduces pressure for clutch to slip

Cleco | Tame the Line

FIXTURED SPINDLES

**KNOWN FOR DURABILITY.
TRUSTED FOR QUALITY.**

**THE ULTIMATE AUTOMATED
TIGHTENING SOLUTIONS.**

Cleco DGD™ Intelligent Spindles are the exclusive fixtured assembly solution, combining reduced floor space, fewer cables and high-speed uptime availability for automated fastening applications. Intelligent spindles provide a wide range of torque capability and industry-leading free speeds.

**REDUCE YOUR FOOTPRINT AND
TOTAL COST OF OWNERSHIP VIA
OUR EXCLUSIVE INTELLIGENT
SPINDLE CABLING TECHNOLOGY.**

When you're looking to run robotic tightening applications, look to Cleco DGD intelligent spindle solutions. By utilizing our exclusive daisy-chain connectors, we offer the only solution in the industry that enables you to run multiple spindles using a daisy-chained cable solution. This results in reduced system complexity, simple cable management and smaller pay-load capacity.

**SAME CELL, SAME ROBOT:
INTELLI-SWAP, AN INDUSTRY FIRST.**

Combining Cleco DGD Intelligent Spindles and daisy-chain connectors with our patented Intelli-Swap system technology, plus an automatic, intelligent tool changer enables your system to rapidly switch from one group of spindles to another using the same controller. Cleco DGD solutions enable you to effortlessly manage multiple applications in a single cell.

Fixtured Spindles

is as simple as 1, 2, 3 !

Conventional Spindle	Single Intelligent Spindle	Intelligent Spindles - Consult Application Center	INTELLIGENT SPINDLES
			Select from catalog. Floating spindle ordered separately.

Fixtured Spindles

Cleco's Digital (BD) Spindles are engineered to bring you a new level of performance and productivity, offering a **best-in-class total cost of ownership**.

Choosing the Correct Spindle

1	B	D	U	53	T1	S	-A
---	---	---	---	----	----	---	----

1	Size = 1-4
B	B = Brushless motor
D	D = Digital design
U	U = U-gear
53	35 Nm max. tool capacity 53 Nm max. tool capacity 110 Nm max. tool capacity
T1	T1 = Single transducer T2 = Twin transducer T3 = Triple transducer
S	S = Straight drive O = Offset drive A = Angle head drive
-A	-A = Spindle revision (ongoing) -Sxxx = Special (xxx = assigned No.)

EXAMPLE:

1	B		D	U	35	T2	S	-A
---	---	--	---	---	----	----	---	----

Conventional spindle #1, U gear, 35 Nm, twin transducers, straight drive, spindle revision A

Increased productivity through higher free speed

Seamlessly and easily integrates to all assembly systems

Increases overall equipment availability through an efficient engineered system

Ensures accurate and repeatable productivity

Fixtured Spindles

Cleco's Digital (BD) Spindles are engineered to bring you a new level of performance and productivity, offering a best-in-class total cost of ownership.

- Speed - Increased productivity through higher free speed
- System Simplicity - Seamlessly and easily integrates to all assembly systems
- Reliability - Increases overall equipment availability through an efficient engineered system
- Accuracy - Ensures accurate and repeatable productivity
- Compatible with mPro300GCD-STO Global Controller

Fixtured Spindles

Cleco's Digital (BD) Spindles are engineered to bring you a new level of performance and productivity, offering a best-in-class total cost of ownership.

- Speed - Increased productivity through higher free speed
- System Simplicity - Seamlessly and easily integrates to all assembly systems
- Reliability - Increases overall equipment availability through an efficient engineered system
- Accuracy - Ensures accurate and repeatable productivity
- Compatible with mPro300GCD-STO Global Controller

Fixtured Spindles

Mini-Spindles are the **compact solution for low-torque applications** in automatic or semi-automatic machine or robotic assembly station.

Choosing the Correct Spindle

30	M	A	D	28	P3	E	G	-S	1	001
----	---	---	---	----	----	---	---	----	---	-----

30	30 - Motorunit 0,9Nm 50 - Motorunit 2,1Nm
M	B = Minispindle
A	A = Angle O= Offset S= Straight T= Tubenut C= Crowfoot
D	D = Digital design
28	28 = max. tool capacity 28 Nm 35 = max. tool capacity 35 Nm 51 = max. tool capacity 51 Nm etc.
P3	P3 = spiral geared AH 3/8"
E	E= Electronic for 2nd Transducer
G	G= Thread in angle head for attachment
-S	- S = Special with ATG Components - C = Special with Customer Components
1	- = Standard -L = turned AH left side -R = turned AH right side -180 = turned AH 180 degrees (Nomenclature of Standard tools ends here)
001	Only used if Special Tool: 001 = ongoing No. Drive Component delivered by: 0 = Apex 1 = Lübbering 2 = free 3 = free 4 = free 5 = free 6 = free 7 = free 8 = free 9 = free

- Intelligent and compact solution for low-torque applications in automatic or semi-automatic assembly (fixed automation or robot)
- Built-in mounting provisions for ease of fixturing
- Lightweight

Model	Torque Range				Free Speed r/min	Weight		Length	
	Min Nm	Max Nm	Min Ft lb	Max Ft lb		Lb	kg	in	mm
30MSD10D3E	3	10	2.2	7.4	1425	2.64	1.2	7.37	187.1

Fixtured Spindles

With straight drive, offset drive, and angle drive configurations, each available with reversible gears, and four different motor sizes to suit different torque requirements, there's an Intelligent Spindle to fit most any situation. Your Apex Tool Group Technical Sales Representative will work with you to determine the best solution for you. We can also provide you with application assistance in automation integration, joint analysis testing, complex data connection, and more.

Example **1** **BTSE** — **1B035A** — **2/** **1M1B** — **1ZB**

X **XXXX** — **XXXXXX** — **X** **XXXX** — **XXXXX**

Size
1, 2, 3, 4

Motor with servoamplifier & measurement card
B - Brushless Motor
U - Reverse gearing
TS - Tightening System
E - Standard

Gear
1 - Size
B - Brushless motor gear
XXX - Max. torque
A - Generation

2nd Transducer for cross check
2 - 2x only for Z attachment

Attachment
1 - Size
Z - Straight attachment
WK - Offset drive with transducer
WK - Angle drive with transducer
1 - Capacity level
B - Version

Transducer
1 - Size
K - Combination torque + angle
1 - Capacity level 1 or 2
B - Version
M - Only moment, no angle encoder

Note: Floating spindle adapter must be ordered separately.

Intelligent Spindle Sizes and Torque Ranges

On board servo module, Patented daisy chain, Torque transducer, Angle Encoder, modular construction

- Long Service Life, Maximum Precision, High Accuracy, World class free speed, On-Board trouble shooting
- Floating adapter not included with spindle

Overview of possible numbers of channels

The maximum number of Intelligent Spindles per mPro400GC Controller depends on load. When calculating the maximum number of spindles, please consider the following conditions:

Maximum speed at 20% of maximum torque (at 1BTSE, 2BTSE, 3BTSE and 4BTSE)

Final tightening stage up to 500 Nm Maximal Speed 50 rpm at maximum torque (at 1BTSE, 2BTSE, 3BTSE and 4BTSE-4B500A...)

Final tightening stage over 500 Nm Maximal Speed 20 rpm at maximum torque (at 4BTSE-4B660A..., 4BTSE-4B660A-4VK4MS, 4BTSE-4B360A-4Z1250A and 4BTSE-4B460A-4Z1600A)

If higher settings are chosen, number of channels should be reduced.

If different spindle types are used at the controller, the number of channels will be individually defined. Please contact Apex Tool Group.

Cleco

CONTROLLERS & SOFTWARE

OPTIMIZE CONNECTIVITY.
MAXIMIZE VERSATILITY.

CLECO CONTROLLERS ARE
DESIGNED TO SEAMLESSLY
CONNECT YOU TO YOUR
ASSEMBLY LINE.

Our versatile Controller Systems manage a wide variety of assembly tools and applications, delivering advanced process configurations and flexible tightening solutions.

Controller Selection Guide

Cleco makes it easy to find the right Controller system for your tools and applications.

Controllers & Software

Software Solutions

mProRemote - TorqueNet - Tightening Parameter Server - Dashboards

Data Management

- Streamline enforcement of access, provisioning, and lifecycle management of parameters
- Provide complete and unified control over content, modification, users and security
- Provides easy access to collected production data via web browser

Product Optimization

- Remote management allows you to push changes to production from the software versus having to physically walk or go to the production line
- Convenient monitoring for use and location of all applications enables you to easily identify which tightening parameters are used in a given location

Error Prevention

- User-specific views in the dashboard provide meaningful data analysis that is relevant and actionable
- Change management capabilities provide ultimate control over authorizing changes prior enabling in production

Quality Assurance

- Application archiving & rollback capabilities save application revisions so they can easily be reinstated into production
- Visibility & traceability features allow you to review who, what, why and when a change was implemented

For more information on the production benefits of Cleco Software Solutions, visit <https://www.clecotools.com/cleco-care/software-solutions>

For corded and cordless tools. Provides unsurpassed levels of flexibility, connectivity, and serviceability while providing superb torque accuracy and process control for safety-critical applications.

- Supports: NeoTek 30/50/70 Series, LiveWire, 18/48/17/47/67 Series, and Conventional BB Spindles
- Transducer Controlled
- Controls up to 16 corded/cordless tools
- User friendly 8.5" interactive screen enables simple programming and quick access to tightening data
- Standard CompactFlash memory card stores up to 10,000* run downs and can be easily switched between controllers with a reboot time under a minute
- Remote programming software enables control of the production process from anywhere

Model	Tool Compatibility	Height	Depth	Width	Weight	
		in	in	in	Lb	kg
mPro400GCD-M	LiveWire CellCore CellTek Intelligent Spindles	15	11.34	10.5	21.3	9.7
MPRO400GCD-M-AP	Livewire, Cellcore, Celltek, Intelligent Spindles	15	11.34	10.5	21.3	9.7

mPro300GCD-STONA	BD Fixtured Spindles	16.1	11.7	5.6	25.6	11.61

The mPro200 Controller can be connected to 10 Cleco cordless tools. Easily capture data in real time within a plant network.

- Compact - Save space on the line (4.5" vs. 10.5" on GCD400)
- Intelligent - 19 fastening strategies for all types of applications
- Easy to Use - Run remotely via mPro remote, or connect an external display using VGA output
- Standard CompactFlash memory card stores up to 10,000* run downs and can be easily switched between controllers with a reboot time under a minute
- Versatile - Compatible with CellCore, LiveWire and I-Wrench
- mPro200GC provided with North America 110V power cord only

- Connects through system bus port
- Provides 16 additional 24v I/O connections

Model	Description
S133437	I/O Expansion Module - 16

- Connects through system bus port
- Quick and simple setup
- Can be networked with up to 31 additional accessories

Model	Description
S133410	4 Position Socket Tray
S133411	8 Position Socket Tray
S970716	Socket Tray Insert

- Connects through system bus port
- Quick and simple setup
- Can be networked with up to 31 additional accessories

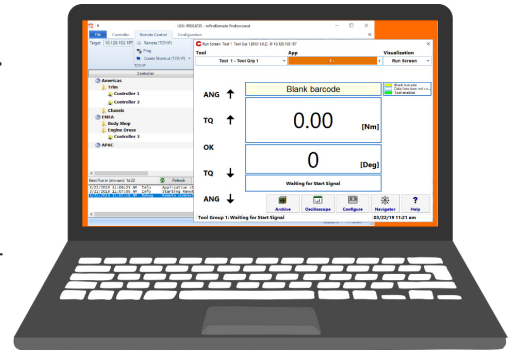

Model	Description
S133420	Stack Light With Buzzer

Controllers & Software

Integrated software that enables programming of application parameters for a controller remotely

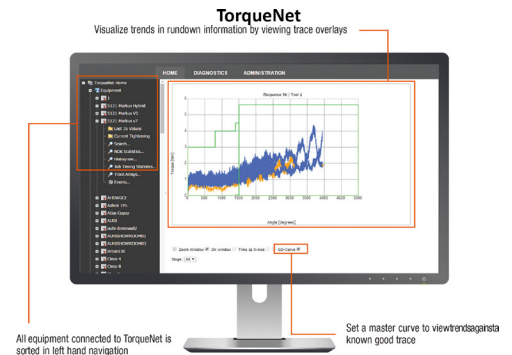

- Access controllers remotely from a networked PC or laptop
- Provides mirrored screen images of what operator on plant floor is seeing
- Monitor rundown results, make programming changes, and perform diagnostics in real-time

Model	Description
mProRemote	Provided with each mPro400GC-M & mPro400GC-P
TM-COM	Provided with each mPro400GC-E & mPro400GC-I

Enables data collection and analytics by making the plant floor data visible anywhere using an internet browser.

- Make your plant floor data visible anywhere using an internet browser
- Data is sent to a single location making critical production information accessible to all users within the tightening process on the assembly line
- Easily compare traces against known good traces
- Provides preventative maintenance notifications

Model	Description	Min. Disk Space	Min. Operating System	Min. Processor Speed	Min. Ram	Min. Virtual Memory	Price Method
S168171-NT-4	TorqueNet Enterprise Single Spindle	30 GB	Windows Server 2008 - 2012 Windows 7/10	1.2 GHz	4 GB	8 GB	Per Spindle
S168171-PR-4	TorqueNet Professional Single Spindle	30 GB	Windows Server 2008 - 2012 Windows 7/10	1.2 GHz	4 GB	8 GB	Per Spindle
S168171-ST-4	TorqueNet Standard Single Spindle	30 GB	Windows Server 2008 - 2012 Windows 7/10	1.2 GHz	4 GB	8 GB	Per Spindle
S168696-ST-1	Open Protocol DC - TorqueNet Add-on	30 GB	Windows Server 2008 - 2012 Windows 7/10	1.2 GHz	4 GB	8 GB	Per Spindle

Enables full control of tightening applications used across a plant or over multiple plants, effectively minimizing opportunities for costly issues.

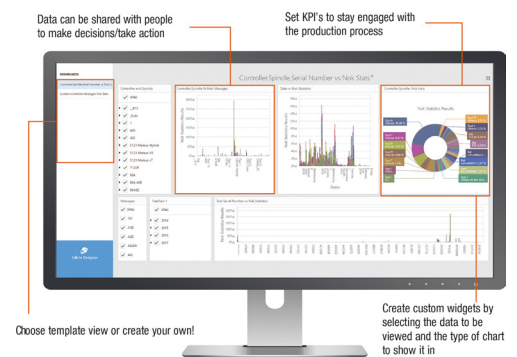

- Central Application Management for efficiently managing tightening applications from a central location
- Provide real-time change management
- Application archiving and rollback capabilities
- Full control of tightening applications across one or multiple plants
- Accurately stores all controller information into a central database

Model	Description	Min. Disk Space	Min. Operating System	Min. Processor Speed	Min. Ram	Min. Virtual Memory	Price Method
S168689-ST-2	Tightening Parameter Server (TPS) Single Spindle	30 GB	Windows Server 2008 - 2012 Windows 7/10	1.2 GHz	4 GB	8 GB	Per Spindle

Improves analysis speed and performance through enabling comprehensive data analysis that is critical to manufacturing operations.

- Empowers with the ability to explore data through customized views
- User specific views enables quick navigation
- Share data to make decisions and take action
- Stay engaged with the production process by creating your own KPI's

Model	Description	Min. Disk Space	Min. Operating System	Min. Processor Speed	Min. Ram	Min. Virtual Memory	Price Method
S168703-ST-1	Dashboard Manager	30 GB	Windows Server 2008 - 2012 Windows 7/10	1.2 GHz	4 GB	8 GB	Per Spindle

2 CPU cores or more recommended.
 Additional disk space may be required depending on total number of spindles.
 TorqueNet Standard to Pro and TorqueNet Standard to Enterprise upgrade packages are also available.
 TorqueNet Pro to Enterprise upgrade package available.

IMPACT WRENCHES

TOUGH TOOLS. EASY CHOICE.

For over 120 Years, Cleco has exclusively supplied the global industrial market. Where other tools are born and bred for garages and tire shops, we make tools that are engineered and primed for the most grueling industrial environments.

Where other tools weaken, seize, or become difficult to repair, our tools will endure and keep on tackling your toughest challenges. Count on Cleco Industrial Air Impact Wrenches for TOUGH TOOLS. EASY CHOICE.

Impact Wrenches

Smooth and efficient impacting mechanism creates no reaction for the operator

- Smooth and efficient impacting mechanism creates no reaction for the operator
- One-hand forward reverse switch
- Rugged metal housing and components outlasts the competition
- Efficient and balanced design maximizes accessibility while minimizing operator fatigue
- 1/4" Quick Change or 3/8" Square with Pin Detent

Model	Torque Range Max		Blows Per Minute	Free Speed r/min	Air Consumption Scfm	Weight Lb	Drive Size in	Drive Type	Air Inlet Size in

MP2265B	111	150	2000	10000	33	2.16	3/8 in	Pin-Detent Square	1/4

Smooth and efficient impacting mechanism creates no reaction for the operator

- Smooth and efficient impacting mechanism creates no reaction for the operator
- Inline to access certain applications with better ergonomics
- Rugged metal housing and components for long life
- Efficient and balanced design maximizes accessibility while minimizing operator fatigue

Model	Torque Range Max		Blows Per Minute	Free Speed r/min	Air Consumption Scfm	Weight Lb	Drive Size in	Drive Type	Air Inlet Size in
	Ft Lb	Nm							
MP2271	65	88.1	900	10500	22	2.2	3/8 in	Square	1/4

Excellent combination of performance, comfort, and value

- Excellent combination of performance, comfort, and value
- Powerful twin hammer mechanism
- Variable speed trigger
- Light-weight and ergonomically balanced
- Ideal for general industrial production, maintenance, and overhaul.

Model	Torque Range Max		Brea-kaway Torque Ft Lb	Blows Per Minute	Free Speed r/min	Air Consumption Scfm	Weight Lb	Drive Size in	Drive Type	Air Inlet Size in

Cleco | Tame the Line

PULSE TOOLS

**DURABLE.
ECONOMICAL.
LOW MAINTENANCE.**

Cleco Pulse Tools are a proven solution for higher torque applications.

Durable by design with market leading repeatability on hard and soft joints.

The high rundown speed, excellent power to weight ratio and low vibration make these the ergonomic tool of choice.

Pulse Tools

Leading motor design combined with new body development provides exceptional biotechnology. Less vibrations allow for greater operator comfort.

With speed governor and oilless blades. Reduces tightening time with increased torque. Unique design reduces blade wear and lowers total cost of ownership.

Innovative centrifugal speed control does not release the entire capacity before run down has ended. Enables operation to as low as 4 bar. Lower air consumption drives lower cost of ownership.

Simply insert hex into rear port of tool.

- Mechanism ranges close to electric tool characteristics at a tolerance of +/- 10% at Six Sigma.

Hard Joint Reference

Ensures accuracy on hard joints. Can be locked into place to prevent accidental modification.

3-Chamber Motor Housing

 Double-chambered pulse unit with built-in automatic oil reserve. Up to 500.000 cycles before the first service.

Delivers market-leading repeatability for hard and soft joints.

Drive Spindle Bearing

Automatically Activated Expansion Chamber

Anti-Wobble Socket

Drive Spindle Bearing Support

Pulse Tools

Market leading repeatability unmatched accuracy, low maintenance, inertia shut-off, low noise level, efficient 3 chamber air motor, external speed control, oil less blades reversible torque signal port

- Durable, Economical low maintenance
- Adaptor 935472 available 3/8" Square to 7/16" Quick Change

Cleco

TORQUE WRENCHES

ACCURACY MADE TO LAST.

INDUSTRIAL TORQUE WRENCHES
THAT PROVIDE REPEATABLE
ACCURACY FOR TOUGH
APPLICATIONS.

Regardless of industry when there is a requirement for accurate torque application Cleco® has the right tool for the job. From safety to quality-critical applications Cleco industrial torque wrenches are the product for your specific application and are compliant with global fastening standards.

Torque Wrenches

- Accurate: Torque accuracy of +/-1.5% CW and +/-2.5% CCW angle settings offer +/-1% reading of angle accuracy
- Durable: Increase uptime with up to 100K cycles between calibration
- Operator Feedback: Vibrating handle, buzzer and tracking LED light indicate when target is reached
- Connectivity: USB connection with PC software interface
- Includes 2 x rechargeable lithium ion battery, charging cradle and USB-A to USB-C cable for charging/PC software
- 1 year limited warranty.

Model	Description	Torque Range Min (ft/lb)	Torque Range Min (Nm)	Torque Range Max		Weight	
		Ft Lb	Nm	Ft Lb	Nm	Lb	kg
ETWA100IC	3/8" 120XP™ Cleco E-Spec Electronic Interchangeable Head Torque Wrench 20-100Nm	15	20	74	100	2.9	1.3

ETWA27IC	3/8" 120XP™ Cleco E-Spec Cleco Electronic Interchangeable Head Torque Wrench 5.6-28Nm	4.1	5.6	20.6	28	2.9	1.3
ETWA340IC	1/2" 120XP™ Cleco E-Spec Electronic Interchangeable Head Torque Wrench 68-340Nm	50	68	250	340	5.1	2.3

- Accurate: Torque Accuracy of +3% CW applies to the upper 80% of wrench capability
- Easy to Use: 10 available preset torque settings allow you to quickly access frequently-repeated applications
- Versatile: 3 function modes feature peak torque, angle and peak angle for additional versatility
- Operator Feedback: Digitally tracks torque and angle measurements. Vibrating handle, buzzer and LCD screen alert when target torque is reached
- 1 year limited warranty
- Conforms with ISO 6789 and ASME B107.300-2022 standards and specifications

Model	Description	Torque Range Min (ft/lb)	Torque Range Min (Nm)	Torque Range Max		Size	Weight	
		Ft Lb	Nm	Ft Lb	Nm		Lb	kg
ETWB135FR	3/8" 120XP™ Cleco Flex Head Electronic Torque Wrench with Angle 13.5-135Nm	10	13.5	100	135	5° - 999° Angle	1.8	0.8

Torque Wrenches

- Accurate: Torque accuracy of +/- 4% CW* delivering precise control to your safety and quality-critical tightening applications.
- Durable: Designed and tested for 100K cycles before recertification providing exceptional durability and reliability.
- Versatile: Industry standard interchange sizes (9x12 and 14x18) that easily integrate into your existing workflow.
- Accessibility: Supplied with a 120XP ball lock ratchet head boasting a minimal 3° swing arc making it ideal in tight spaces.
- Comfort grip with line indicating correct operating position
- Conforms with ASME B107.300-2022 standards and specifications
- Tamper proof preset beneath a cover, using standard Torx® wrench PTW05IC T20, PTW25IC/PTW50IC T30, PTW100IC/PTW200IC T40 - Not Supplied.

Model	Torque Range Min		Torque Range Max		Weight	
	Ft Lb	Nm	Ft Lb	Nm	Lb	kg

PTW50IC	7 ft/lb	10 Nm	37	50	1.04	.47

- Product calibrated right hand only.
- Adjustable model with precision micrometer scale.
- Accuracy is ±6% of setting, starting at 20% of full scale to full scale. Right hand only.
- Precision micrometer scale (adjustable models) calibrated in inch-ounces or inch-pounds.
- Easy-release 1/4" Hex bit holders securely retain bits during operation while permitting easy removal.
- Anti-backlash design for repeatability.

Model	Description	Type	Weight
			Lb
TS-100	20-100 inoz in 2 inoz increments - Black Collar	U.S. Standard	0.51
TS-30	6 -30 inlb in 1 inlb increments - Red Collar	U.S. Standard	0.51
TS-35	6 -36 inlb in 1 inlb increments - Blue Collar	U.S. Standard	0.51

Torque Wrenches

- Product calibrated right hand only.
- Adjustable model with precision micrometer scale.
- Accuracy is $\pm 6\%$ of setting, starting at 20% of full scale to full scale. Right hand only.
- Precision micrometer scale (adjustable models) calibrated in inch-ounces or inch-pounds.
- Easy-release bit holders securely retain bits during operation while permitting easy removal.
- Anti-backlash design for repeatability.

Model	Description
KT-100	Screwdriver Kit - 20 Piece Kit with TS-100
KT-130	Screwdriver Kit - 43 Piece Kit with TS-30 & TS-100
KT-30	Screwdriver Kit - 24 Piece Kit with TS-30

- Specifically designed for reliable tightening of the very smallest threaded fasteners.
- Largest model weighs only 1 oz.
- Reach set torque and slip to prevent over-torquing of delicate components.
- Accuracy $\pm 6\%$, right hand only. Meets or exceeds ASME B107.14M and ISO 6789 specifications.
- Use miniature universal bits tang drive

Model	Description	Weight	Length
		Lb	in mm
TT-1	5-20 inoz in 1/4" inoz increments	0.066	3.625 in 92 mm

- Specifically designed for reliable tightening of the very smallest threaded fasteners.
- Largest model weighs only 1 oz.
- Reach set torque and slip to prevent over-torquing of delicate components.
- Accuracy $\pm 6\%$, right hand only. Meets or exceeds ASME B107.14M and ISO 6789 specifications.
- Use miniature universal bits tang drive

Model	Description	Weight	Length
		Lb	in mm
TT-SN-1	Can be preset within ranges 5-30 inoz / .33-2.0Nm	0.066	3.625 in 92 mm

- Product calibrated right hand only.
- Easy-release 1/4" hex bit holders securely retain bits during operation while permitting easy removal.
- Preset Model

Model	Description
TS-SN-1	Can be preset within ranges 1.5 -10 inlb / 20-150 inoz / .15-1.1Nm
TS-SN-2	Can be preset within ranges 8 -40 inlb / 128-640 inoz / .1-4.5Nm

Cleco

Cleco | Tame the Line

MOUNTABLE POWER MOTORS

**Choose the right
Air Motor to fit your
application.**

Apex Tool Group's air motors are engineered for flexibility and reliability. Cleco air motors cover a wide range of uses where compressed air is advantageous: powering air driven machinery, raising foundry copes and drags, rotating a turntable, mixing paint, powering cranes, valve actuation, or power source for mechanical hands or universal joints.

Air Motors

Maximum Power 0.7 hp | 0.52 kw

- Maximum Power 0.7 hp | 0.52 kw

All models assume overhung load located at 1.75" (44.45mm) from face of motor.

These motors must be operated with sufficient load to prevent speed from exceeding maximum allowable speed, 75% of free speed as shown on performance curve.

General:

Air Inlet: 3/8" NPTF

All tools performance rated @ 90psi (620 kPa) air pressure.

Optional Equipment:

Lubricating Oil – Part 533485 (1 gallon) Airube 10W/NR

Gear Grease - Part A123771 (16oz) Shell Gadus S2 V220 00

BM-9B	5 - 9kg / 11-20 lb	1.8m / 5.9ft	16.32	7.4

- Aluminum housing
- Spring break protection
- Adjustable cable stop permits adjustment of tool to the required height
- Manual drum locking
- Coated cable drum against wear
- Mounting bar can be rotated 360°
- Cable diameter 5.0 mm
- Option: 939536 safety chain

Model	Description	Cable Length	Weight	
			Lb	kg
BH-39B	31 - 39kg / 68 - 86lbs	2.1	37.49	17

Accessories

Up to 68Nm/50 ftlbs use with Electric, Pneumatic Clutch Stall and Pulse and Manual Electronic and Click Torque Wrenches

- Choice of measurement modes including track, peak, pulse, and click
- Memory for 999 date- and time-stamped readings for complete traceability
- 3-color LED indication of torque measurement status
- Easy-to-operate for fast and accurate torque readings and assembly tool auditing
- Automatically switches to highest voltage power source (main/USB/battery)
- Clear, easy-to-read white OLED screen for basic torque data readings and alerts
- Analyzer supplied with either 4Nm or 30Nm rundown joint
- Range can be expanded with optional 68NM transducer and rundown kit - suitable for 4Nm and 30Nm analyzer

Model	Description	Torque Range Max	
		Ft Lb	Nm
CJK38	Dynamic Joint Kit for use wiith 68Nm Stationary Transducer	50	68
CST6838	68 Nm Stationary Transducer	50	68
CTA0414	0.4-4 Nm Torque Analyzer	3	4
CTA3038	3.0-30Nm Torque Analyzer	22	30

Cycle or Run Time Counter for Small Pneumatic Tools Up to 20cfm / 570 lpm

- First ever odometer and tripometer for small pneumatic tools
- Useable on any small pneumatic device with suitable air flow, including Cleco & Dotco products
- Manage tool service and tool calibration, quantify & compare tool consumable life
- Monitor workforce productivity, improve quality of product or process and realize cost savings
- LED indicator lights blink yellow (warning) and red as cycle and run time limits are reached.
- Easy-to-use monitoring software included
- Tamper-proof cover for micro-USB access
- Min Air Flow 5CFM/145 l/min Max Air Flow 20CFM/ 570 l/min

Model	Max Pressure	Max Flow	Min Flow	Weight
	lb/in ² bar	cfm l/min	cfm l/min	Lb

Cleco | Tame the Line

DRILLS

ENGINEERED FOR YOUR APPLICATIONS.

Cleco offers two levels of hand drills depending on your application needs. Cleco MP Series Drills are Industrial grade medium duty drills suitable for a wide range of production and MRO applications.

Cleco® Dotco™ drills are Industrial high duty grade and are used daily in applications ranging from appliances to aerospace manufacturing.

Offered in a variety of configurations, including pistol grip, inline, and right angle, Cleco Dotco air drills are designed for the high-volume, high-repetition, high-precision demands of today's assembly lines.

PARTS INTERCHANGEABILITY.

Maintenance of tools can be time consuming and expensive. That is why our products have been designed with high parts interchangeability. With fewer parts required to repair our tools, less inventory of parts is required and tools are easier to repair.

PRECISION PARTS

It's simple, precision parts let operators manufacture precision products. Whether it is a spindle, a chuck, a motor or an angle head, our parts are manufactured from the finest materials available and are machined to the highest tolerances.

DEPENDABLE ERGONOMIC DRILLS

Cleco Dotco drills have long been the industry workhorse for the high-volume, high-repetition, high-precision demands of today's assembly line. Cleco® Dotco™ drills are the ergonomic solution to deliver comfort and productivity, while assuring decreased operator fatigue, potential for injury and downtime on the line.

Hand Drilling, Countersinking & Spotfacing

Design features double ball bearings for the spindle, pre-loaded for longer bearing life and more accurate spindle control. Vibration and runout are reduced.

Gears are machined from alloy steel and heat-treated, with fixed cages to control centers for smooth operation.

Time-proven motor and gear design is well-balanced to reduce vibration and extend tool life.

Each tool is individually checked, aligned and adjusted on our assembly line for minimum chuck runout. Vibration is minimized.

Ergonomically critical finger and thumb guides fit the hand and aid in control.

The trigger is practically forceless requiring only 4 ounces of pressure to engage.

Full feathering is accomplished with our pressurized tip-valve design for speed control while drilling.

Housing is made of durable lightweight industrial grade aluminum.

Finger lip under the trigger keeps other fingers from interfering with the trigger action.

Rubber grip acts as a thermal protector and isolates vibration for improved operator comfort.

Handles are shaped to fit the human hand. They are flat where they need to be flat and round where they need to be round ensuring less slippage.

Minimal noise levels enhance operator comfort.

1025780	Heavy Duty Angle Head - 500 Series	-55	3/8"-24 Internal Thread

These drill attachments can be ordered as a separate accessory item or as part of a complete model. To order as a complete model, use the basic model number from the appropriate 15LF or 15LN and replace the termination number -52 for example with the termination number of the desired optional attachment -59NC for example from this page.

- For difficult access applications
- -42 1/4"-28 Internal Thread For Direct Cutter Mount and Collet Adaptor Option 14-1569 (Mini Collet) Max 1/4"/6.4mm
- -43 Threaded Collet Max #10/5mm - Collets Ordered Separately
- -44 5/16"-24 Internal Thread
- -44 5/16"-24 Internal Thread

Model	Description	Tool Termination	Spindle Size
1025730	45° Angle Head	-42	1/4"-28 Internal Thread
1025731	45° Angle Head	-43	9/32"-40 Internal Thread
1025733	45° Angle Head	-44	5/16"-24 Internal Thread

These drill attachments can be ordered as a separate accessory item or as part of a complete model.

Hand Drilling, Countersinking & Spotfacing

- Versatile swivel head for very difficult access applications
- -91 10-32 Internal Thread for Direct Cutter Mount
- -92 1/4"-28 Internal Thread For Direct Cutter Mount and Collet Adaptor Option 14-1569 (Mini Collet) Max 1/4"/6.4mm

Model	Description	Tool Termination	Spindle Size
1025694	360° Angle Head	-92	1/4"-28 Internal Thread

These drill attachments can be ordered as a separate accessory item or as part of a complete model. To order as a complete model, use the basic model number from the appropriate 15LF or 15LN and replace the termination number -62 for example with the termination number of the desired optional attachment -92 for example from this page

- For Use with Quick Change Power Units
- Right Angle, 45 Degree and 360 degree version for optimum access

Cycle or Run Time Counter for Small Pneumatic Tools Up to 20cfm / 570 lpm

- First ever odometer and tripometer for small pneumatic tools
- Useable on any small pneumatic device with suitable air flow, including Cleco & Dotco products
- Manage tool service and tool calibration, quantify & compare tool consumable life
- Monitor workforce productivity, improve quality of product or process and realize cost savings
- LED indicator lights blink yellow (warning) and red as cycle and run time limits are reached.
- Easy-to-use monitoring software included

Model	Max Pressure	Max Flow	Min Flow	Weight

240461PT	100 lb/in ² 6.9 bar	20 570	5 145	0.176

Hand Drilling, Countersinking & Spotfacing

For use with Cleco Dotco 15LF, 15LS & 15LN right angle drills with 1/4"-28 spindles.

- For use on Cleco 15LF, 15LS & 15LN right angle drills
- Adapts 1/4"-28 output to collet/chuck for straight shank drills

Stroke 7.5mm/0.30in

Cutter Thread RB 206 M6x1 RB(I) 206 1/4"-28

- Different mounting bases available
- Reduced dimensions for tight access areas
- For special composites mounting base with vacuum
- Cemented, hardened and ground chrome-nickel steel spindle mounted on a self lubricating bronze body and a thrust bearing.
- Centring-cone of the cutter (120°) for perfect concentricity.
- Microstop depth adjustment (1 scale division = .001").

Hand Drilling, Countersinking & Spotfacing

Stroke 21mm/0.83"

Cutter Thread M6 x 1 or 1/4"-28

Input shank 7mm/0.28"; No 1 Jacobs Taper, 3/8"-24 Female Thread

- Detachable spindle adaptor provides alternative methods for use:
 - In combination with 3 jaw chuck.
 - Mounting direct onto machine spindle using No 1 Jacobs taper or 3/8"-24 Threaded Input Option. This method provides increased level of concentricity, while reducing the length and weight of the drill / tool assembly. This results in better performance, improved machining and less fatigue on the operator.
- Cemented, hardened and ground chrome-nickel steel spindle mounted on 3 needle-bearings and a thrust bearing.
- Microstop depth adjustment (1 scale division = .001")
- Microstop depth setting is held securely in place by locknut with seal. This patented feature allows an easy loosening of the locknut without damage to the drill cage.

Hand Drilling, Countersinking & Spotfacing

Stroke 38mm/1.49"

Cutter Thread M6 x 1 or 1/4"-28

Input shank 7mm/0.28", No 1 Jacobs Taper, 3/8"-24 Female Thread

- Detachable spindle adaptor provides alternative methods for use:
 - In combination with 3 jaw chuck.
 - Mounting direct onto machine spindle using No 1 Jacobs taper or 3/8"-24 Threaded Input Option. This method provides increased level of concentricity, while reducing the length and weight of the drill / tool assembly. This results in better performance, improved machining and less fatigue on the operator.
- Cemented, hardened and ground chrome-nickel steel spindle mounted on 3 needle-bearings and a thrust bearing.
- Microstop depth adjustment (1 scale division = .001").
- Microstop depth setting is held securely in place by locknut with seal. This patented feature allows an easy loosening of the locknut without damage to the drill cage.

Cleco

Cleco | Tame the Line

Up to 3/16" | 4.8mm Capacity Al rivets

- Rivet set holder adjustment - stroke 0.12" allows the operator to use this compression riveter with different thicknesses without changing the rivet set.
- This light, sturdy, compact and fast compression riveter, has a maximum rivet capacity of 9/64" dia (3,6 mm) for aluminium rivets (depending on the rivet joint thickness).
- Equipped with a safety throttle lever.
- Smooth controlled throttle movement for fast and slow approach.
- To develop maximum power the riveter must squeeze the rivet near to the end of the riveting stroke. Therefore, the combined length of the two rivets sets must be correct.
- The operator can adjust exactly the position of the rivet by adjusting the snap holder (stroke 3 mm). This allows the operator to use the same rivet set for different thicknesses.

Up to 5/16" / 8mm Capacity Al rivets

- The RB 46 pressure riveting assembly comprises a hydropneumatic generator, a hydraulic cylinder and a regulator for setting the force (max. 7 tonnes). It uses various standard and special yokes to form solid rivets made from various materials.
- It is easy to use and adjust, making it suitable for all riveting operations on assembly rigs and for maintenance repairs.
- The work cycle is performed automatically after initiation by the operator.
 - quick feed at low pressure until rivet contact
 - high pressure squeezing at preset forces
 - automatic return.
- The principle of this riveting assembly is based on automatic control of the squeezing force ; no additional adjustment is required to squeeze rivets of the same type, diameter and material on assemblies of varying thicknesses.
- An adjusting nut can be used to reduce the return stroke to shorten the riveting time.

RC-60001005	5 mm - 0.197" dia	1/16 in 3/32 in 1/8 in 9/64 in 5/32 in 3/16 in 7/32 in	0,5 mm - 0.02" dia

0 to 1/4" (30mm)

- Simple and handy, equipped with a flexible, highly-efficient safety locking device, this inspection tool is designed for checking all thicknesses from 0 to 1 1/4" (30 mm).
- The accurate scale allows reading to 0.004" (0,1 mm).

Model	Description
60901000	RB 2010 - Thickness Gauge

Easy removal of Rivet Rings 4.00 - 8.00mm

- Simple, rugged and handy, this tool has been designed to afford the easy removal of rivet rings (Huck, LGP type or others) without risk of damage to the hole or skin.
- Strong mechanical leverage enables clean removal of rings into two half shells.
- Quick change levers enable the ring cutter to be used in either « in line » or « right angle » position.
- Reduced dimension of the working part.
- No adjustment or setting required for use which is a considerable time-saver for rivet ring removal.
- Removable, quick change anvils.

Model	Fastener Size
60004000	4 mm 0.1579 in

Cleco

Cleco | Tame the Line

MATERIAL REMOVAL

CLECO MATERIAL REMOVAL TOOLS ARE COMPRISED OF:

The Cleco Dotco family of precision grinders whose reputation for durability, dependability and versatility is among the highest for fine finishing applications.

Cleco Dotco sanders and buffers that are built off the common platform of the precision grinders. Cleco MP series tools that are industrial grade medium duty tools suitable for a wide range of production and MRO applications. Cleco rough grinding tools meet the demanding requirements of industries including shipbuilding, pipe fabricating and welding applications. Since these types of applications typically require a high material removal rate, Cleco grinders typically incorporate higher horsepower motors.

CLECO DOTCO PENCIL AND DIE GRINDERS GRINDERS ARE DESIGNED WITH THE OPERATOR IN MIND.

They are small, lightweight and comfortable to use, without sacrificing durability. Plus, they incorporate elastomer coatings, and perfectly balanced moving parts to keep vibration to a minimum. This optimal combination of tool characteristics allows the operator to focus doing the best job possible, in the least amount of time.

HIGH PERFORMANCE FOR HIGH-VOLUME, HIGH-REPETITION TASKS.

Cleco's Dotco drills have long been the industry workhorse for daily high-volume, high-precision use in applications ranging from appliances to aerospace manufacturing. Be it aluminum, steel, titanium, composite, or wood, many industries require hand-drilled holes, and Cleco's Dotco tools offer some of the industry's most durable and reliable handheld drills, available in pistol, angle and in-line configurations.

THE CLECO DOTCO DIFFERENCE

Precision - Known for their performance, dependability and versatility, the Cleco Dotco brand is viewed as the premier line of surface-preparation tools in the industrial marketplace. With the lowest runout in the market, precision parts let the operators manufacture precision products.

Ergonomics - Cleco Dotco tools are designed so that their form follows their function. Simply put, these tools that are more comfortable for the operator to use, and work with operators - not against them.

Versatility - By using only a few motor types, a diverse line of Cleco Dotco products have been developed to handle a wide range of applications. The tools also have a high interchangeability of part making maintenance easier and more affordable.

Cleco Dotco Grinders

100,000 RPM 0.06 hp (0.044 kW)

- Requires no air line lubrication - High precision ball bearings for long life expectancy
- Two-stage turbine motor with roll throttle and front exhaust
- Achieves a superb finish with its high speed and precision spindle
- Light weight and durable steel housing
- Low vibration and quiet operation minimizes operator fatigue

Model	Collet Size	Exhaust	Free Speed	Abrasive Capacity Grinder	Weight	Length	Air Inlet Size
			r/min		Lb	in	in
10R9000-03	3mm	Front	100000	3/16" Carbide Burr, 3/16" Diamond Pin	0.441	5.4	1/8 in
10R9000-08	1/8 in	Front	100000	3/16" Carbide Burr, 3/16" Diamond Pin	0.441	5.4	1/8 in

CAUTION: Use dry air at 90 psi maximum: Do not lubricate turbine grinders. Lubrication will be detrimental to the operation and life of turbine tools. Do not attach a quick-disconnect fitting directly to the tool.

Standard Equipment:

Applicable collet, collet wrenches, 7 ft./2.1 m air supply hose, replaceable cartridge hose filter.

60,000 RPM 0.1 hp (0.074 kW)

- Industrial bearing provides long life expectancy
- Designed for precision deburring and metal removal
- Compact and light weight composite housing
- Roll throttle equipped

Model	Collet Size	Exhaust	Free Speed	Abrasive Capacity Grinder	Overhose	Weight	Length	Air Inlet Size
			r/min			Lb	in	in

Do not attach a quick-disconnect fitting directly to the tool.

Standard Equipment:

Applicable collet, collet wrenches, collet guard, 5 ft/1.5 m air supply hose, 1 ft./0.3 m overhose

Cleco Dotco Grinders

40,000 RPM 0.2 hp (0.15 kW)

- Equipped with dial throttle
- Compact size for ultimate control - easy access to confined areas
- Ideal for die and mold work as well as deburring
- Comprehensive selection of speed available

Model	Collet Size	Exhaust	Free Speed	Abrasive Capacity Grinder	Weight	Length	Air Inlet Size
			r/min		Lb	in	in
12R0500-36	1/4 in	Front	40000	1/4" Carbide Burr, 7/8" Mounted Wheel	0.66	5.9	1/8 in

All tools performance rated @ 90psi / 620 kPa air pressure.

Minimum Hose I.D.: 3/16in / 4.8mm

Standard Equipment:

Applicable collet, collet wrenches, collet guard, 7 ft / 2.1m air supply hose

12,000 - 34,000 RPM 0.3 hp (0.22 kW)

- Durable and ergonomic composite housing - Ideal for die/mold and deburring
- Compact size for ultimate control - easy access to confined areas
- OH versions include 4' of Overhose for additional noise suppression
- Conversion kits available to add OH Overhose on rear exhaust tools for additional noise suppression
- LH = Left Hand Rotation
- Optional Extended Collet Guard - 01-1047 supplied separately

Model	Collet Size	Exhaust	Free Speed	Abrasive Capacity Grinder	Weight	Length	Air Inlet Size

Used for with Type 27 & Type 28 Wheels

Model	Tool Series
849269	15V, 1200V, 1700V, 1900V, 3060V, 4060V

For use with 12-10 front exhaust tools only

- Completely covers the collet
- For use with 12-10 front exhaust tools only
- Limits the diameter of the cutting tool used to 1/2"
- Air is exhausted at an angle

Model	Tool Series
14-2188	12-10 Front Exhaust

Adaptor Kit for 7" and 9" Depressed Center Wheels

- Adapt a 7/8" arbor abrasive to a 5/8"-11 threaded spindle

Model
14-5008

Cleco Dotco Sanders & Polishers

12,000 - 20,000 RPM 0.4 hp (0.29 kW)

- Composite housing
- 12000rpm or 20000rpm, front and rear exhaust models available
- Ergonomic and balanced design minimized operator fatigue
- Tool not supplied with backing pad as shown
- Conversion kits available to add OH Overhose on rear exhaust tools for additional noise suppression

Model	Collet Size	Exhaust	Free Speed	Abrasive Capacity Grinder	Abrasive Capacity Sander	Weight	Length	Head Height	Air Inlet Size
			r/min			Lb	in	in	in
12LF281-36	1/4 in	Rear	20000	1/2" Carbide Burr, 1" Mounted Wheel	2" (50 mm) Sanding/ Polishing disc	1.1	6.6	2.70	1/4 in

MP Series Tools

70,000 RPM 0.06 hp (0.044 kW)

- Cleco MP series are industrial grade medium duty tools suitable for a wide range of production and MRO applications.
- Ideal for precision deburring, blending and smoothing applications
- Rear exhaust directs air away from work
- Standard with 5 ft air hose and 1 ft overhose
- Ideal for tight spots
- Slim comfortable design with ergonomic grip for operator comfort

Model	Collet Size	Exhaust	Free Speed	Abrasive Capacity Grinder	Overhose	Weight	Length	Air Inlet Size

Standard Equipment:

Collet, applicable wrenches

20,000 - 30,000 RPM 0.3 hp (0.22 kW)

- Available in both geared and gearless
- Multiple speed and power options available to find the right tool for the application

Model	Exhaust	Shank Diameter Capacity	Free Speed	Drive	Weight	Length	Air Inlet Size
		in	r/min		Lb	in	in
12L1201-36RT	Front	1/4 in	20000	Geared 0.3 hp (0.22 kw)	1.76	6.5	1/4 in
12L1281-36RT	Rear	1/4 in	20000	Geared 0.3 hp (0.22 kw)	1.76	6.5	1/4 in

All tools performance rated @ 90psi / 620 kPa air pressure

Minimum hose I.D.: 1/4in | 6.4 mm

Standard Equipment:

Collet, applicable wrenches

9,000 - 18,000 RPM 1.7 hp (1.27 kW)

- Roll valve gives easy, convenient operation
- Cool running governed pneumatic motor - Stays cool even under heavy load
- Easy-to-use thumb throttle can be operated without releasing hand from handle
- Smooth accurate cuts - assured by precision spindle
- Uses K style colets - 3/8" Collet Supplied
- Uses third party base with aftermarket guides readily available

Model	Exhaust	Shank Diameter Capacity	Free Speed	Type Housing	Weight	Length	Air Inlet Size
		in	r/min		Lb	in	in
10T4309-62	Side	1/2 in	9000	Aluminum	7.5	7.1	1/2 in

 Standard Equipment: Wheel guard and flange wrench

Specialty Tools

For use with Cleco Dotco Inline Grinders

- For use with Cleco Dotco 10-10,12-10, 10-20,12-20 and 10-25, 12-25 series Inline Grinders
- Converts grinder to a router
- Thread mount with locking screw
- Router guides sold separately

Model	Shank Diameter Capacity	Tool Series
14-2180	1/4 in	12-20, 12-25
14-2187	1/4 in	12-10
14-2429	3/8 in	12-20, 12-25

- For use on Dotco 12-10, 12-20, 12-20, 12-25 and 12-40 series.
- The minimum router bit length (OAL) to be used is determined by the formula:
 $OAL = 1-13/16" + C + P$ (series 12-10); $OAL = 2" + C + P$ (series 12-20 & 12-25).
 "C" is the "C" dimension of the router guide and "P" is the desired protrusion of the router bit.
- Important: Insert bit into collet as far as possible, then pull out 1/16" and tighten collet.
- In an emergency, if it is necessary to pull out the bit more than 1/4", be sure to insert a short length of blank shank (not to exceed 5/8" long) in the bottom of the collet before inserting the bit.
- May be subject to Minimum Order Quantities

Use only for sawing non-metallic materials.

Converts front exhaust to a one of the configurations shown below

- Refer to the Vacuum Ready 12-42 Models in the catalog

Model	Description	Tool Series
4133	Option 3 - Vacuum System Adapter	12-42

To convert an existing Cleco Dotco front exhaust series 12-42 saw to Vacuum operation, order any of the conversion kits listed in the table.
 NOTE: When converting to vacuum, free speed of the tool will be reduced 20%.

Almost half the weight of standard models with similar BPM

- 4200 Blows per minute
- Compact design for work in close quarters
- Almost half the weight of standard models with similar BPM
- Precision heat treated needles for maximum performance
